

GIVING CHILDREN IN SOUTH AFRICA A QUALITY EDUCATION

We are a registered charity in the UK. Our vision is for all children in South Africa, regardless of their circumstances, to have the best possible chance for a bright future. We support the provision of quality education for poor children in Hout Bay, South Africa by providing educational grants and funding related educational projects.

WHY

South Africa is failing in educating its children. We make it easy to connect and be part of a solution which gives children the opportunity to succeed. We have direct links with the team in South Africa, offer active support and have full transparency of the allocation of the funds.

WHAT MAKES BRIGHT START DIFFERENT

Bright Start offers a holistic package. We cover the fees of the children at a quality school and provide children with additional support such as: mentorship, education specialist, parental guidance, targeted tuition depending on the need, access to internet and extra maths support, medical care, school uniform and equipment and a safe learning environment are part of the package,
